Hire a Groundhog Intern

Do you own a business, make hiring decisions, influence hiring decisions or select students for internships? Let the Office of Personal Career Development (OPCD) support your efforts by:

- Posting jobs and internships via [Handshake](#).
- Developing a process to screen student candidates.
- Designing an internship program.
- Connecting with talent acquisition or campus relations teams.

Why do University of Dallas students want or need internships?

- Freshmen and sophomores need the opportunity to show their worth prior to employment.
- Students with internship experience are more likely to get at least one job offer after graduating than those without internship experience.
